The **Star 24 LED 2D Bulkhead lights** are environmentally friendly replacements for traditional 2D bulkhead light fittings.

Typically using 50% less energy, these LED lights can significantly reduce energy consumption and cut carbon emissions. Ideal for reducing expenditure and helping with environmental issues.

These LED 2D Bulkhead lights are ready for connection to either AC mains power supply or our Mercury solar power management unit, which provides a flexible lighting solution where mains power is not available or desired.

The Star LED 2D Bulkhead Light is IP65 rated and comes in a vandal resistant fitting manufactured from strong pressure die-cast aluminium, with a flame-retardant polycarbonate cover and tamper-resistant cover screws as standard.

These luminaires are ideal for use in security area, subways, pedestrian areas, multi storey car parks and any environment prone to vandalism.
